The Way Forward: Closing Europe's Investment Gap

"Europe can and must capitalize on its own strengths."

Stefan Hartung, Chairman of the Board of Management - Robert Bosch GmbH

Simple-Smart Administration

Simplify public-funding application procedures and reporting obligations for companies.

Broader use of Tax Incentives

Better integrate national tax incentives schemes as supporting financial pillar into Europe's investment portfolio.

Capital Markets Union

Translate the political momentum into concrete actions!

Keeping Investments Home

Putting the voice of Europe's innovation community in the driver's seat is essential.
