Cordula Kleidt, Head of Unit 'Science Communication; Science Years'

Strategic developments and projects

Coalition Agreement (2021)

“Science communication and participation

*Science is not a closed system, but thrives on exchange
and communication with society“ [...]*

*With citizen science [...], we will integrate perspectives
from civil society more strongly into research. We want to
strengthen open access and open science.“*

(Coalition agreement of the current legislative period, p. 21)

Strategic development: milestones since 2019

Strategy for
Participation
in Research
(2023)

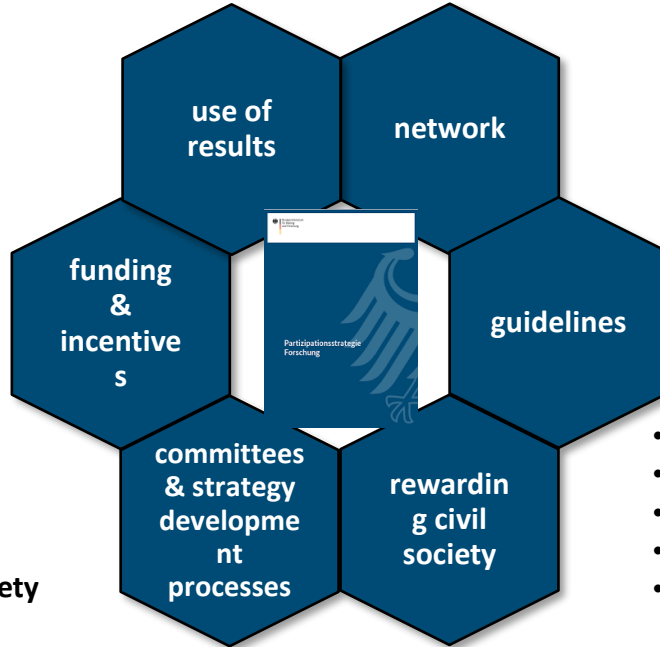

Measures and recommendations

- transparent
- effective
- FAIR Principles & Open Access

citizen science:

- 2 BMBF funding calls
- **research prize** “Knowledge of the Many“ (since 2023)
- **competition** “On your marks! Citizen Science in your City“ (2021-2024)
- **stronger involvement of civil society**
- esp. applied research

- for **research funders**
- for **researchers**

- **expense allowances**
- **release from work**
- **certificate of participation**
- **mentioning of participants**
- **public recognition**
